Certificate of Trust from The Islamic Sharia Council

This is to certify that:

- (A) We have looked thoroughly into the work of National Zakat Foundation through the information provided by them and through a ground visit to their Head Office in East London.
- (B) The main area of concern on which this certification is based are:
1. All donations, monies of Zakat and Sadaqa are received voluntarily either for a specific cause or a general one.
 2. An honest and accurate record of such monies is maintained.
 3. Every application asking for Zakat has been scrutinised as to their eligibility to receive Zakat.
 4. Those eligible for Zakat have received the amounts either directly or through their accounts.
 5. Zakat monies are given to the recipients who fall into one of the eight categories as described in the verse 60 of Surah Al-Taubah.
 6. The staff responsible for collection and distribution, being considered as "Al-Amileen-e-Alaiha" (those who work on it), are given their wages from within the share of 12.5% of the whole amount collected as Zakat. We are satisfied that it is around 10% at present.
 7. Zakat monies are not spent on acquiring a premise for the Foundation. The offices are hired, and the rent is being paid from general donations aside.
 8. In case of a project, the cost to carry out the project is treated as admin expenses, same as in N°6.
 9. All monies collected for Zakat are being distributed within twelve months from the date of their receipt.
 10. Trustees of the Foundation were not among the recipient of any Zakat monies.
- (C) We are satisfied as for all the 10 points of concern and hence we certify that National Zakat Foundation is a credible authority to collect and distribute Zakat in U.K
- (D) This certificate is valid for one year and renewable after twelve months after further inspection.
