Shariah and Quality Audit

From January 2022, I have taken on the role of External Shariah and Quality Auditor for National Zakat Foundation. I will be undertaking regular audits of NZF's Zakat-distribution procedures and practices. My focus is on two areas. First, that these procedures and practices comply with NZF's published Shariah policy, which I confirm to be sound and in accordance with Islamic Sacred Law. Second, that these procedures and practices are undertaken with a good level of quality. I am satisfied that there is a strong commitment in the organisation to continually improve in the quality of its processes and maintaining Shariah compliance.

NZF fulfils an important role in serving a pillar of Islam in the United Kingdom by connecting Zakat givers and Zakat recipients. It is my intention to serve this pillar by undertaking fair and unbiased Shariah and quality audits.

I pray Allah accepts our service in His Cause in ensuring that Zakat is distributed according to the Sunna of our beloved Prophet صَلَّى اللهُ عَلَيْهِ وَسَلَّمَ.
